

Academic Progress and Plan (Doctoral -Year 2)

Student Name:		Expected year of completion:	
Mentor/advisor:		Year entered:	
Do you have or plan to take a UF masters degree? Yes No		Year of Master's degree:	

Current Courses	Distribution areas	Algebra	Analysis	Applied	Top/Fnd	Other
Fall 2018						

First Year Exams For the PhD, you need full passes on three semester exams, with at least one from the Algebra row, at least one from the Analysis row and at least one from one of the two Traditional columns.

		traditional	traditional	(at most 1)		
Algebra		MAS5311	MAS5312	MAD6406	MTG5317	
	month & year taken or planned:					
Analysis		MAA5228	MAA5229	MAD6407	MTG5316	
	month & year taken or planned:					
PhD Exam planned:						

PhD exam passed:

--	--	--	--	--	--	--

Plan for oral qualifying exam (prior to midpoint of 1st semester 4th year):

1. What area(s) of mathematics are you considering for research? The names of the PhD written exams about may suggest areas for you to consider. For normal academic progress you will be expected to have secured a PhD advisor by the end of March 2019 and have a supervisory committee in place by the end of the Spring 2019 semester. Let us know if you are thinking about stopping with an MS degree.

2. Have you given a talk, poster, oral presentation or taken an oral exam in the current calendar year? If so, where and when? Do you feel your oral or written communication skills have improved this year?

3. You will be asked about what courses you plan to take next fall in the spring interview. Plan to talk with your mentor/advisor about courses you would like to take. You can indicate courses you would like to see offered here.

4. Have you completed your Individual Development Plan and discussed it with your Mentor/Advisor?
