UF Mathematics Erdos Colloquium

Ron Graham
March 1999

Ronald L. Graham (UC San Diego)

Paul Erdos and his Problems

Room: Little Hall 109
Date: March 15, 1999
Time: 4:00-5:00 p.m.

Cookies and Coffee: at 3:30 in Little Hall 339 (The Atrium)

Introductory Remarks by **M. Jack Ohanian**
Interim Vice-President for Research/Dean of the Graduate School

Abstract:

Paul Erdos was the most prolific mathematical problem poser in history. He had the uncanny instinct for identifying problems which were both attackable and ``enabling'', that is, whose solution would lead to a significant advance. In this talk, Dr. Graham will describe some of Paul Erdos' favorite problems.
